## PROJECT

### ProShift -Parcel Delivery & Rider Management System

[Live site](#) | [Client code](#) | [Server code](#)

A full-stack MERN platform for managing parcel deliveries with role-based dashboards for Admin, Rider, and User. Implemented real-time parcel tracking, secure online payments, and an admin panel for managing users, riders, parcels, and transactions.

#### Key Features :

- Role-based dashboards for Admin, Rider and User
  - Real-time parcel tracking and status updates
  - Online payment support and earnings management
  - Secure authentication using Firebase + JWT
  - Full admin control panel for user, rider and parcel management
- React | React Router | Tailwind CSS | Firebase Auth | Node.js | Express.js | MongoDB | JWT | Stripe Payment

### CareerLink - Freelancing Marketplace

[Live site](#) | [Client code](#) | [Server code](#)

A freelancing platform where clients post jobs and freelancers submit bids. Includes real-time updates for bids, personalized dashboards and secure authentication. Helps users manage projects, applications, bid history and profiles from one place.

#### Key Features :

- Job posting and bid system
- Secure authentication+protected routes
- Project and application management
- Real-time data with TanStack Query
- User dashboards for clients and freelancers

React | React Router | Tailwind CSS | Firebase Auth | Node.js | Express.js | MongoDB | JWT

### CTG Blood Connect – Blood Donation & Management Platform

[Live site](#) | [Client code](#) | [Server code](#)

A full-stack blood donation platform connecting donors and recipients in Chittagong with donor search, request handling, and admin management features.

#### Key Features:

- Donor registration and availability management
- Search donors by blood group and location
- Secure authentication with role-based access
- Responsive and user-friendly interface
- Admin dashboard for user and donor management

React | React Router | Tailwind CSS | Firebase Auth | Node.js | Express.js | MongoDB | JWT
